

Palazzi e giardini del centro Italia

2015 ADFAS tour

Roderick Laird

A word cloud collage featuring various Italian place names and their associated families or historical figures, such as Farnese, Palazzo, Siena, Pienza, Fabiano, Cerveteri, Landriana, Sacro, Castel, Viterbo, Foce, Orsini, Taverna, Caprarola, Lante, Bosco, Potentino, and Ruspoli, all set against a black background.

This is a small *memento peregrinatione* for the fellow-travellers on the 2015 ADFAS tour of central Italy. It focuses on places, not people - for ample of the latter, more ephemeral imagery has been shared. While not a comprehensive visual narrative of our journey together it hopefully brings back some happy memories and pleases the eye.

You will find "QR codes" through the material - like the block image below. These, through your phone's camera search function, will show you the location where adjacent images were taken.
